**CLUBS BEGIN MONDAY 24 July 2023**

Club	Years	Time	Venue	Cost	Led by	Additional information
<b>Monday</b> <b>16 Sessions</b>						
<b>Netball (morning)</b>	4 - 6	7:30am 8:25am	Hall	\$72	IGS PDHPE Teacher	<b>ONLY RUNS IN TERM 3 (9 sessions)</b> A great way for upper primary students to kick off the week. Come along and enjoy a fun and fast paced session, available for beginners and more experienced players. All Year 5 and 6 students are encouraged to attend to enhance the Interschool sport competition on Thursdays.  For information about the program please contact the <a href="#">Primary PDHPE Department</a> .
<b>Karate</b>	1 - 6	3:30pm - 4:30pm	Fitness Facility	\$320	Ino and Leigh from <a href="#">Jin Sei Ryu Karate</a>	Learn and practise the discipline of martial arts, keep fit and have fun with Jin Sei Ryu Karate. For beginners and above.
<b>3D Game Design and Animation Course</b>	3 - 6	3:30pm - 4:30pm	K404E	\$560	PIEX	Students will use Bolt scripting in the Unity workspace to create a project that will test their problem solving, computational and design thinking skills through game design and animation. This course will give students an insight into how software development is conducted and a great way for them to work on a project within a team to create innovative and creative ideas.  Find out more at <a href="http://www.piexeducation.com/after-school-program/">www.piexeducation.com/after-school-program/</a>
<b>Ceramics Club</b>	3 - 6	3:30pm - 4:30pm	Art room	\$400	Laura Vail - Art Technician	<b>THIS IS A REPEAT OF THE SEMESTER 1 PROGRAM</b> Using our hands and imaginations, Ceramic Club will introduce students to building with clay! Together we will create small ceramic objects that explore different hand building techniques as well as texture, colour and shape. Most importantly it's lots of fun!
<b>Science Club</b>	1 - 6	3:30pm - 4:30pm	K328	\$368	Pepi locco-Catt	<b>THIS IS A REPEAT OF THE SEMESTER 1 PROGRAM</b> Each week in Science Club we conduct a new exciting experiment and investigate the science behind it. From exploding volcanoes to playing with slime, our future scientists will develop their STEM skills and have fun while doing so!

<b>Electronic Dance Music Band and DJ Club - <u>Junior</u></b>	3 & 4	3:30pm - 4:30pm	K418	\$480	Stuart Ridley - Techno on 3	Children will take part in DJ lessons and be part of an electric music dance band. In DJ lessons they will learn how to use different kinds of DJ technology, mix music for an audience, plan a set and perform it, record DJ sets and learn about dance music history. In the band, children will learn how to play 4 kinds of synthesizers, change sounds with synth controls, understand different dance music styles and structures, create riffs, melodies and basslines for different styles, play dance music live as a group to the beat of drum machines and learn about dance music production and recording. Check out a <a href="#">performance</a> from past students in the program.
<b>Drama and Theatre Sports</b>	3 - 6	3:30pm - 4:30pm	Drama Centre	\$320	Ewan Cooper Frater	Learn acting skills to devise and create theatre collaboratively and individually. Learn how to improvise using the skills and techniques of Theatresports.

## Tuesday 16 Sessions

<b>Coding</b>	1 - 6	3:30pm - 4:30pm	W202	\$560	<a href="#">PIEX</a>	Students will be exploring and creating projects based on different themes such as archeology, automation biomimicry, using Scratch coding platform. This course will provide students the platform to build on their creative and design skills through coding. Find out more at <a href="http://www.piexeducation.com/after-school-program/">www.piexeducation.com/after-school-program/</a> .
<b>Science Club</b>	1 - 6	3:30pm - 4:30pm	Art Room	\$368	Pepi Iocco-Catt	<b>THIS IS A REPEAT OF THE SEMESTER 1 PROGRAM</b> Each week in Science Club we conduct a new exciting experiment and investigate the science behind it. From exploding volcanoes to playing with slime, our future scientists will develop their STEM skills and have fun while doing so! <b>Note: this is a repeat of Monday's Science Club</b>
<b>Minecraft - Junior</b>	1 - 3	3:30pm - 4:30pm	K401E	\$352	Kennedy Lee & Sophia Bal	Children will work on a project in teams that will culminate week to week. Children will build and work in both creative and survival modes with the latest Minecraft technology.
<b>Electronic Dance Music Band and DJ Club - <u>Senior</u></b>	5 & 6	3:15pm - 4:45pm	K417	\$480	Stuart Ridley	Children will take part in DJ lessons and be part of an electric music dance band. In DJ lessons they will learn how to use different kinds of DJ technology, mix music for an audience, plan a set and perform it, record DJ sets and learn about dance music history. In the band, children will learn how to play 4 kinds of synthesizers, change sounds with synth controls, understand different dance music styles and structures, create riffs, melodies and basslines for different styles, play dance music live as a group to the beat of drum machines and learn about dance music production and recording. Check out a <a href="#">performance</a> from past students in the program.
<b>Little Drama</b>	1 & 2	3:30pm - 4:30pm	Drama Centre	\$320	Ewan Cooper Frater	Come and learn the foundations of Drama in this supportive and fun club which will explore storytelling, acting and creative movement. For further information about the program please contact the <a href="#">Creative Arts Department</a> .
<b>Sewing *NEW*</b>	5 & 6	3:30pm - 4:30pm	Design & Textiles Centre	\$592	Gary Bigeni <a href="#">Gary Bigeni Designer / Founder</a>	Fashion Designer Gary Bigeni will be running weekly sewing classes. The workshops will provide the students with skills and social experiences. Each week they will create ideas using upcycle and recycle fabrics. Allowing each student to create ideas that allow them to use in their everyday life. They will learn how to use the sewing machine and how to deconstruct and reconstruct clothing into new ideas. Things we will be making include tote bags, hats, pencil cases, laptop bags, heat packs and tie dye.

## Wednesday

For information about the program please contact the <a href="#">Primary PDHPE Department</a> .
<b>Kilometre Club (morning)</b>	3 - 6	7:30am - 8:25am	Meet at main gates to walk to the park for a 7.40am start	\$128	IGS PDHPE teacher	One of our most popular sessions, the Kilometre Club training program is available for all our lovers of running and cross country!  For information about the program please contact the <a href="#">Primary PDHPE Department</a> .
<b>Karate</b>	1 - 6	3:30pm - 4:30pm	Fitness Facility	\$320	Ino and Leigh from <a href="#">Jin Sei Ryu Karate</a>	Learn and practise the discipline of martial arts, keep fit and have fun with Jin Sei Ryu Karate. For beginners and above.
<b>Coding</b>	1 - 6	3:30pm - 4:30pm	W202	\$560	<a href="#">PIEX</a>	Students will be exploring and creating projects based on different themes such as archeology, automation biomimicry, using Scratch coding platform. This course will provide students the platform to build on their creative and design skills through coding. Find out more at <a href="http://www.piexeducation.com/after-school-program/">www.piexeducation.com/after-school-program/</a> .
<b>Soccer - Junior</b>	1 & 2	3:30pm - 4:30pm	Hall	\$352	Mr. Howell	Students will be coached by an ex-professional soccer player. They will be involved in fun drills to improve soccer technique. There will be team games with plenty of action and goals!
<b>Freestyle Dance Club *NEW*</b>	1 - 3	3:30pm - 4:30pm	TBC	\$480	Sheba Williams - <a href="#">The Singing Emcee</a>	Freestyle Dance Club is designed by performer Sheba Williams to introduce children to the magic of freestyle dancing while teaching them about music. This semester we will be learning about the music and artists from the 80's - from Queen to Prince to Hip Hop Dance, it will be high energy fun. As the weeks progress, children will have the opportunity to create their own unique routines, showcasing their newfound skills and individuality. Not only will our program foster a love for dance, but it will also promote physical fitness, coordination, and self-expression. With each session, children will gain confidence, improve their flexibility, and build lasting friendships with their fellow dancers. Sheba ran a Glee Club at Bourke Street Primary School, where her twins attend, and loves to foster confidence and self-expression in children.

## Friday 16 Sessions

<b>Athletics Training</b>	2 - 6	7:30am - 8:15am	Wentworth Park	\$128	IGS PDHPE Teacher	Open to all students in Years 2 to 6 who are interested in improving in Athletics. Sprints, 800m and field events.  For information about the program please contact the <a href="#">Primary PDHPE Department</a> .
<b>Chess</b>	1 - 6	3:30pm - 4:30pm	K328	\$400	<a href="#">Sydney Academy of Chess</a>	Learn from the professionals and play games with fellow students. Compete in competitions later in the semester!
<b>Soccer - Senior</b>	3 - 6	3:30pm - 4:30pm	Hall	\$352	Mr. Howell	Students will be coached by an ex-professional soccer player. They will be involved in fun drills to improve soccer technique. There will be team games with plenty of action and goals!
<b>Minecraft</b>	1 - 6	3:30pm - 4:30pm	K401E	\$352	Kennedy Lee & Sophia Bal	Children will work on a project in teams that will culminate week to week. Children will build and work in both creative and survival modes with the latest Minecraft technology.
<b>Braided Rugs and Blankets</b>	4 - 6	3:15pm - 4:45pm	K331	\$352	Ms. Jessica Slater	Braided rugs are an early American form of rug. Strips of cloth are braided together and then the braids are wound to produce a circular or oval rug. In this group, the braids will be made using waste or used fabric and stitched together. Students will need to bring to the club some old clothes that would otherwise end up in landfill to turn into a rug or blanket.
<b>Web Game Development with Stencyl</b>	3 - 6	3:30pm - 4:30pm	TBC	\$560	<a href="#">PIEX</a>	Children will dive into the captivating world of 3D platformer game development using Stencyl, exploring advanced concepts in level design, character controls, and environmental physics. Through hands-on projects and guidance from PIEX coaches, students will refine their skills, strengthen their problem-solving abilities, and create impressive platformer games ready to be published on websites. <b>Note: This program is specifically tailored for intermediate to advanced kids who have prior experience in game design and programming.</b>
